

Dedicated fire safety solutions

Churches Fire & Security; providing a safe pair of hands since 1992.

We are a UK-based company and supply customers across a wide range of industry sectors with the best fire safety solutions.

Under the Regulatory Reform (Fire Safety) Order 2005, employers, landlords and business owners in England and Wales are legally responsible for the fire safety of anybody who works at, or visits their premises.

Our aim is to enable businesses, large or small, to protect their staff, visitors and assets from the risk of fire through long-term partnerships.

We are the only fully-integrated fire safety company in the UK, delivering comprehensive fire protection, detection and suppression. Our service offering includes the maintenance, servicing and installation of a wide range of fire safety products including alarms, extinguishers, sprinklers, risers and more.

Churches Fire & Security is a fully-compliant and third-party accredited company, guaranteeing quality assurance throughout all of our work.

Choose Churches Fire & Security

- ✓ **Complete fire care** - all of the safety products and services your company could need under one roof.
- ✓ **Nationwide technicians** - each customer is allocated regional technicians to form long-standing relationships and understand your individual business needs.

Products and services

Fire prevention

Fire Risk Assessment

appraises the level of protection, containment, risks and procedures to ensure regulatory fire protection.

Fire Training

provides appropriate knowledge to manage and safely use the correct fire safety equipment.

Fire evacuation

Emergency Lighting

guide your customers and staff to safety in an emergency, illuminating escape routes in the event of a power failure.

Fire Safety Signs

show the way to safety in an emergency by keeping individuals informed about fire evacuation procedures.

Fire detection

Fire Alarms

alert you to the early stages of fire, helping to prevent irreparable damage to your property.

Fire Alarm Monitoring

protects your company when your buildings are empty 24 hours a day, seven days a week.

Fire containment

Sprinklers

once activated, help to suppress a fire by releasing an even spray of water upon affected areas.

Fire Doors

act as a physical barrier designed to confine and contain the spread of fire or smoke, providing vital evacuation time.

Passive Protection

provides integral, fire-resistant protection of a building's structural materials, including walls, floors and doors.

Gas Suppression

fight fires when water cannot be used, saving expensive electrical equipment through the release of inert gases.

Kitchen Suppression

automatic, wet chemical extinguishing systems designed to protect equipment, life and property.

Dry and Wet Risers

used by the fire brigade to quickly distribute water to any floor of a multi-story building via strategically located landing valves.

Fire Extinguishers

hand-held, portable devices designed to discharge substances used to extinguish different classes of fire.

At Churches Fire & Security, we have built our reputation as a trusted nationwide provider, by putting our customers' needs first.

Our nationwide technicians

Getting it right first time, our technicians are serviced by over 150 UK managed stores supplied with tools, products and parts. Each customer is allocated regional technicians to form long-standing relationships and understand your individual business needs.

Our customer service

Collaboration with our clients is a key part of our service. We use the latest technologies to allow smooth operation of our systems and processes. Clear communication, quality service and a flexible approach sit at the heart of everything we do.

Our commitment to our customers

We work with you to ensure the best quality of products, services and full compliance with industry regulations. Our 24/7 emergency call-out policy ensures we are there for you when you need us most.

Continuous improvement

Innovating for the future, we are pro-active in looking to expand our service offering. We collaborate with our staff and customers to assess how we can better meet their needs going forward, whether this is through staff training, provision of a new product or service, or changing our systems and processes.

Our Industry Accreditations

We take great pride in our commitment to providing the best quality service, products and customer care. Our third-party certification is invaluable for our customers, showing our competence as a company, as verified by independent assessment.

With Churches Fire & Security, you can guarantee a high standard of products, installation and service, undertaken by qualified technicians.

We keep abreast of legislation changes and product developments as they are released, expanding our accreditations and certifications list as we continue to develop our staff, services and responsibilities.

Key Accreditations Include:

Loss Prevention Standards (LPS) and Certifications
ISO 9001:2008, LPS 1048 and LPS 1014.

ISO 9001:2008
The International Standard for Quality Management Systems (QMS).

Sprinkler Accreditations
LPS 1048 level three accreditation. Sprinkler servicing audited to ISO 9001.

Fire Alarm Accreditations
LPS 1014, BAFA SP201

Fire Extinguisher Accreditations
BAFE SP101

FIA
Churches Fire & Security is a member of the FIA (Fire Industry Association)

BAFSA
Churches Fire & Security is a member of the BAFSA (British Automatic Fire Sprinkler Association)

Health and Safety Accreditations
Churches Fire & Security is a member of the Contractors Health and Safety Assessment Scheme (CHAS), Exor, Altius, and Safecontractor, who make sure contractors we use comply with the highest health and safety standards.

Businesses all around the UK have put their trust in Churches Fire & Security to supply fire safety products and services. Contact us today for fire safety solutions you can rely on.
