- ✓ Technology-enabled communications
- ✓ Monthly customer meetings
- ✓ Transparency and visibility through our customer portal
- ✓ A responsive, caring account handler
- ✓ Swift rectification of issues
- ✓ Fire safety compliance and assurance

6,800

We understand that compliance and safety are essential for this industry. That is why last year our teams completed over 6,800 courses last year.

57,000

Over 57,000 sites were made fire safe and secure by our dedicated team last year.

FIRE SAFETY COMES FIRST

Throughout our continued and long partnership with The Wrekin Housing Group, we've diligently delivered full-service fire safety and protection services. Our contract encompassed an impressive 290 sites, ranging from high-rise flats and residential blocks to warden-managed homes, shops, and offices.

At the heart of our commitment lies the maintenance of critical fire prevention systems, including dry risers, smoke vents, and fire sprinklers. Right from the project's inception, we collaboratively tailored our services as part of the agreement, into interval servicing with Wrekin Housing, ensuring their unique needs were met. In times of crisis or emergency, we offer the invaluable assurance of swift emergency response, with our teams ready to act within two hours.

Our extensive experience in social housing maintenance equips us to tackle its distinctive challenges. To maintain fire safety compliance, we prioritise flexibility and open lines of communication. Our dedicated account handler serves as a reliable and personal point of contact, fostering a relationship built on trust and dependability. Our skilled technicians provide daily telephone support, ensuring Wrekin Housing's peace of mind.

For planned maintenance, Wrekin Housing generates individual purchase orders, which are seamlessly sent electronically to our technicians each week. These technicians, in turn, schedule appointments and confirm them with a courtesy call the day prior. During service visits, over 90% of identified remedial work is promptly addressed, exemplifying our commitment to delivering a highly efficient and cost-effective service that aligns with commercial fire safety regulations.

“ Church's Fire & Security deliver a very good level of service across our housing stock. Whether it's servicing, maintenance, or emergency call-outs, the technicians are always polite, presentable and represent Church's Fire in a positive manner. They're experts in their field and provide a high level of service in what can be a very challenging sector. ”

Stewart, Facilities Co-Ordinator, Wrekin Housing
